About this Codebook

This codebook is intended for users of the Early Years Evaluation (Anglophone Sector) database. This codebook provides an overview of the data contained in the database and important technical information regarding use of the database, which contains results from the Early Years Evaluation Direct Assessment for the Anglophone Sector of school districts in New Brunswick.

This data product is provided 'as is', and NB-IRDT makes no warranty, either express or implied, including but not limited to, warranties of merchantability and fitness for a particular purpose. In no event will NB-IRDT be liable for any direct, special, indirect, consequential or other damages, however caused.

Overview

Early Years Evaluation Direct Assessment (EYE-DA) results measure a child's readiness to enter the education system. Included are measurements of a child's awareness of self and environment, cognitive skills, language and communication skills, physical development, and fine and gross motor skills. The administration of the EYE-DA takes about 45 minutes per child and is scored using three colour codes:

- green, denoting appropriate development,
- yellow, experiencing some difficulty, and
- red, experiencing significant difficulty.

The scoring takes into account a child's age at the time of assessment and is ideally suited for children aged 3 to 5 years. More comprehensive information on the structure and administration of the EYE-DA is available through the EYE-DA website:

<https://www.earlyyearevaluation.com/index.php/en/products/eye-da>.

The Early Years Evaluation (Anglophone Sector) database represents the EYE-DA results for the Anglophone Sector of school districts in New Brunswick. The Francophone Sector of school districts in is represented in the Early Years Evaluation (Francophone Sector) database.
